

Centargo Solution Plans

POWERED BY CORTENIC™ CONNECTIVITY

Optimizing the capabilities and performance
of your connected MEDRAD® Centargo

MEDRAD® Centargo
CT Injection System

Cortenic™

MEDRAD® Centargo POWERED BY CORTENIC™ CONNECTIVITY

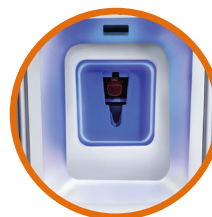

A Solution for Your Connected CT Suite

The Centargo CT Injection System is a multi-patient connected injector for high throughput suites that automates manual processes and is ready for the next patient in under 20 seconds.

With Efficiency.

Automated features, intuitive daily setup and quick change time between patient scans streamline workflow.

With Confidence.

Flexible contrast options, unique safety and efficient workflow features help you confidently manage your daily tasks.

With Care.

Thoughtful design makes a great impact on patients and a smaller impact on the planet, from DualFlow technology to fluid optimization and a package design with 80% less plastic waste.*^{1,2}

With Connectivity.

Powered by Cortenic™ Connectivity, MEDRAD® Centargo is a comprehensive solution for workflow efficiency, unlocking the full potential of the connected suite with integrated software, services, education and data.

With Centargo Solution Plans.

Optimize the capabilities and performance of your connected MEDRAD® Centargo.

INTRODUCING CORTENIC™ CONNECTIVITY:

Cortenic™ Connectivity powers connected solutions from Bayer. Connectivity unlocks access to advanced features, which can help drive workflow efficiency, optimize performance and deliver data for smarter insights in the radiology suite.

*Reductions stated are in comparison to a prior version of packaging design released in 2020 for global product launches. This prior packaging design was not made available in the US.

Introducing Centargo Solution Plans

POWERED BY CORTENIC™ CONNECTIVITY

To unlock the advantages of connected software and services, pair MEDRAD® Centargo with the solution plan that is right for your department. Centargo Solution Plans powered by Cortenic™ Connectivity combine the latest injector technology, software and services to activate holistic, scalable solutions and new levels of efficiency.

Centargo Solution Plans elevate the features and benefits of the connected injector, and are designed to drive outcomes in your department, from results that streamline your essential daily operations, to those that drive comprehensive clinical and operational initiatives. Solution plans bring the best of Bayer’s technical and clinical knowledge to your suite, allowing the experts you trust to become an extension of your team.*

All customers begin with the Base Solution – a connected MEDRAD® Centargo.

From there, the Essential Solution Plans offer the fundamentals in support and maintenance services or software.

The Comprehensive Solution Plan offers integrated software, advanced services, education and data for the connected suite.

*When paired with MEDRAD® Centargo purchased through the capital acquisition pathway, Centargo Solution Plans are available for agreement term lengths of 1-, 3-, 5- or 7-years.

Get Connected with the MEDRAD® Centargo Base Solution

Every customer starts with **The Base Solution** – a connected **MEDRAD® Centargo**. When remote connectivity is activated at install, MEDRAD® Centargo can automate software updates, including cybersecurity maintenance, and can enable the connected software and services available through the Essential and Comprehensive Tiers.

The Base Solution includes:

- Installation*
- Initial Clinical Applications Training
- Remote Connectivity
- Critical Cybersecurity Patching
- 12-Month Manufacturer's Warranty

*Installation fees will be listed separately from the MEDRAD® Centargo purchase on the quote and invoice.

Enhance your Suite with Connected Services or Software

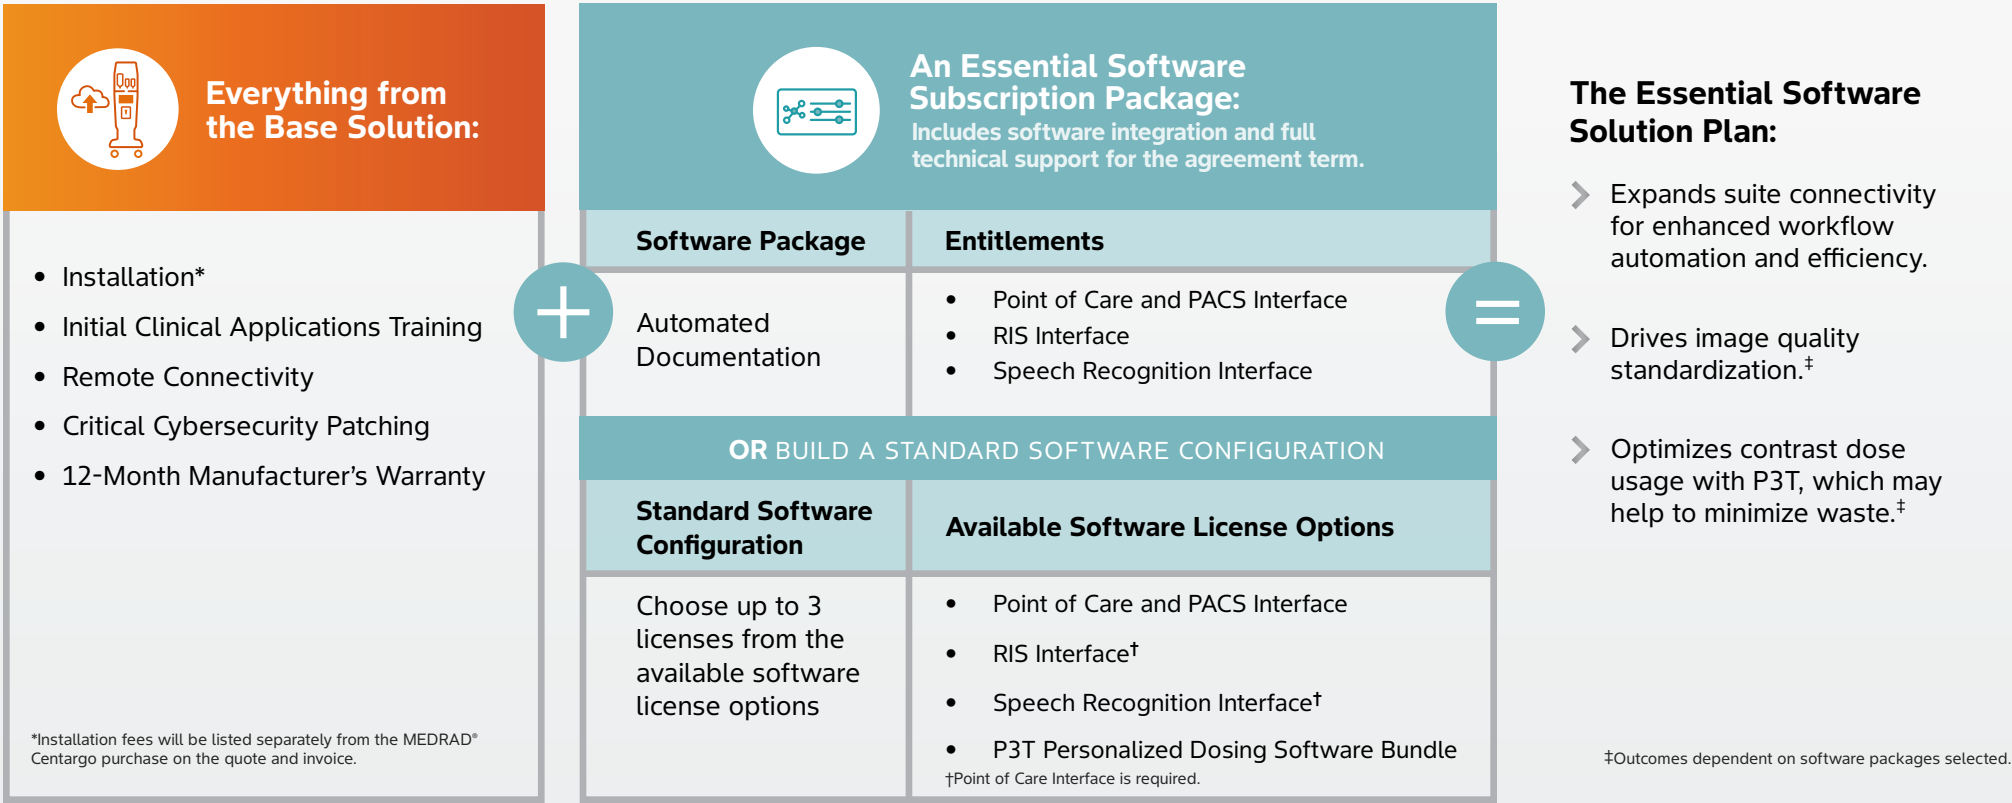

The **Essential Solution Plans** are designed to deliver the fundamentals of connected services or software so that you can effectively manage your daily operations. There are two Essential Solution Plans to choose from, depending on your needs.

The **Essential Service Solution Plan** delivers support and maintenance through remote connectivity and connected services and is ideal for suites with high uptime and performance requirements.

The Essential Software Solution Plan offers access to connected workflow software through a subscription that includes integration and ongoing technical support.

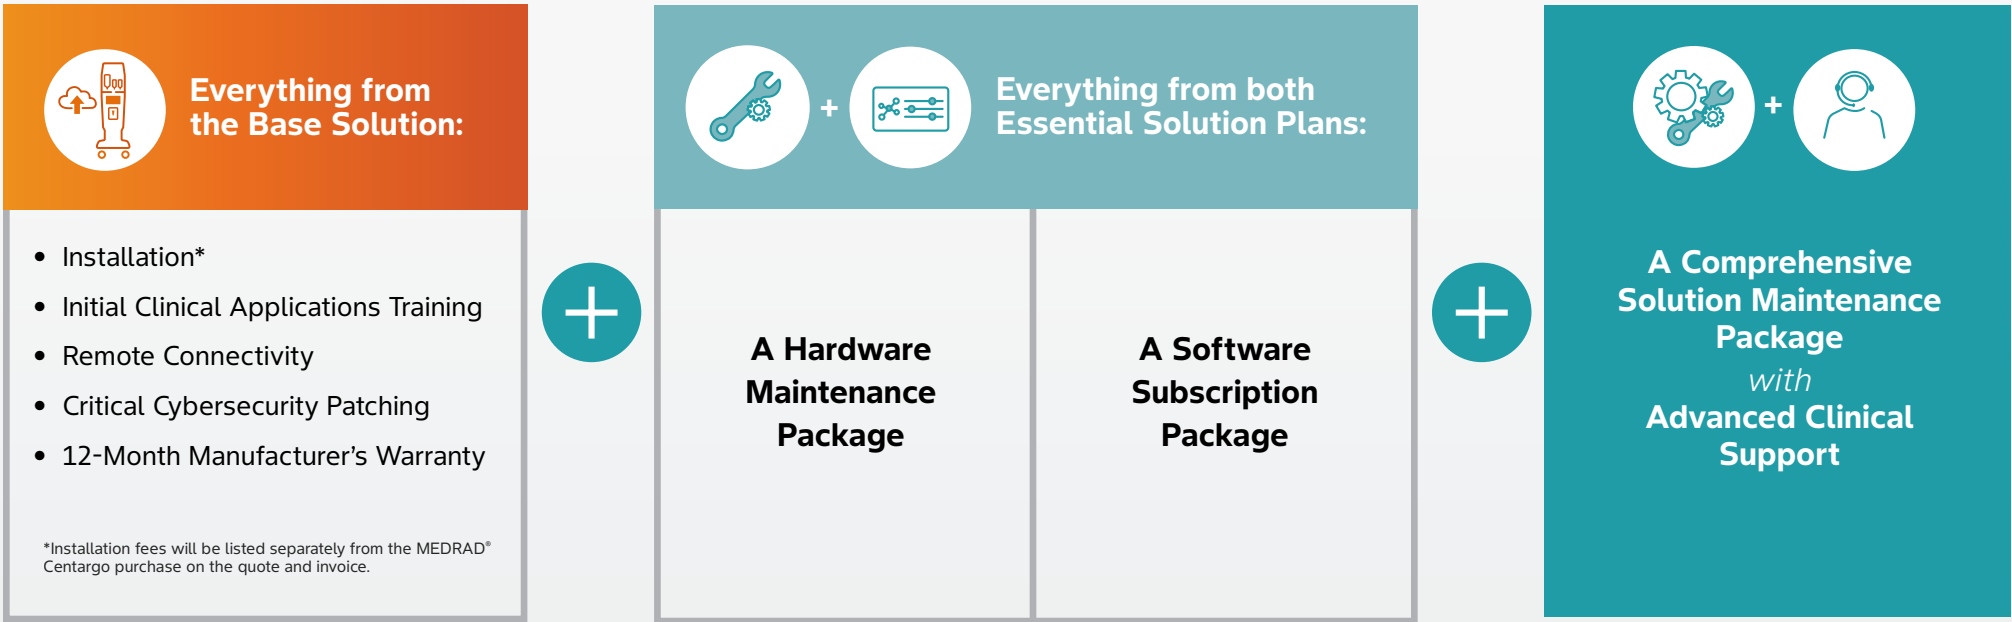

Unlock the Full Potential of the Connected Suite with Advanced Support, Data and Insights

The Comprehensive Solution Plan elevates productivity, performance and insights in your department with integrated software, services, education and data. In addition, Bayer’s clinical and technical experts serve as a valuable extension of your team.

The **Comprehensive Solution Plan** offers access to connected software, services and advanced clinical support.

The Comprehensive Solution Plan:

- Optimizes your connected MEDRAD® Centargo solution by pairing hardware, software and support with advanced clinical services.
- Delivers insight into your suite operations and workflow through connected data.
- Provides access to Bayer's clinical experts for ongoing collaboration and tailored recommendations.

Learn more about what is included in the Comprehensive Solution Maintenance Package and the Comprehensive Software Subscription Package.
