

Solution Plans for MEDRAD® MRXperion MR Injection System

POWERED BY CORTENIC™ CONNECTIVITY

Optimize workflow and operational
performance with connected software
and services.

MEDRAD® MRXperion
MR Injection System

Cortenic™ Connectivity

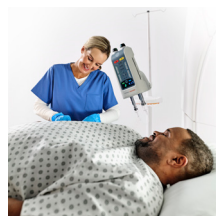

MEDRAD® MRXperion

POWERED BY CORTENIC™ CONNECTIVITY

Versatility and Automation for Streamlined Workflows

The MEDRAD MRXperion MR Injection System, powered by Cortenic Connectivity, is designed with automated features for streamlined care.

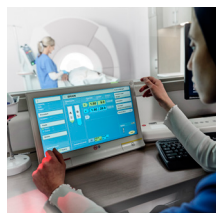

With Consistent, Personalized Care.

Integrated connectivity and protocol adjustability for delivering reproducible, personalized care.

With Workflow Flexibility.

Broad range of contrast compatibility with both single-dose vial and bulk package presentations, enables versatile workflows to fit the dynamics of your suite.

With Connectivity.

Powered by Cortenic Connectivity, MEDRAD MRXperion helps drive performance across your connected suite through integrated software, services, education and data.

With Expanded Performance and Versatility.

Designed for seamless integration within your MR suite, supporting scanner field strengths up to 7 Tesla with optional ISI2 connectivity to help streamline and simplify workflow.

With Solution Plans.

Access software and services to activate the full value of your connected MEDRAD MRXperion.

INTRODUCING CORTENIC CONNECTIVITY:

Cortenic Connectivity powers connected solutions from Bayer, unlocking advanced capabilities to streamline workflows, support performance and enable data-driven insights across the radiology suite.

Tiered Solution Plans

To unlock the advantages of connected software and services, pair MEDRAD MRXperion with the Solution Plan that is right for your department. Solution Plans for MRXperion, powered by Cortenic Connectivity, provide a streamlined path to capabilities that support documentation efficiency, workflow consistency and ongoing value in your MR suite. As your needs grow, the scalable model makes it easier to adopt new offerings or move to the next tier.

Solution Plans for MRXperion provide access to software and services that can elevate the features and benefits of the connected injector. Designed to drive outcomes in your department, they streamline your essential daily operations while supporting comprehensive clinical and operational initiatives. Solution Plans bring the depth of Bayer's technical and clinical knowledge to your suite, allowing the experts you trust to become an extension of your team.

ESSENTIAL SERVICE TIER

ESSENTIAL SOFTWARE TIER

COMPREHENSIVE TIER

A Tiered Approach to Connected Solutions

All customers begin with the Base Solution — a connected MEDRAD MRXperion.

From there, the Essential Solution Plans offer the fundamentals in connected support and maintenance services or software.

The Comprehensive Solution Plan offers integrated software, advanced services, education and data for the connected suite.

Get Connected with the Base Solution for MRXperion Injectors

Every customer starts with The Base Solution — a connected MEDRAD MRXperion. When foundational connectivity and security are activated at install, MEDRAD MRXperion can enable the connected software and services available through the Essential and Comprehensive Tiers.

The Base Solution includes:

- + Injection System and Warranty
- + Installation*
- + Clinical Training
- + Foundational Connectivity and Security

*Installation fees will be listed separately from the MEDRAD MRXperion purchase on the quote and invoice.

Enhance your Suite with Connected Services or Software

The **Essential Solution Plans** are designed to deliver the fundamentals of connected services or software so that you can effectively manage your daily operations. There are two Essential Solution Plans to choose from, depending on your needs.

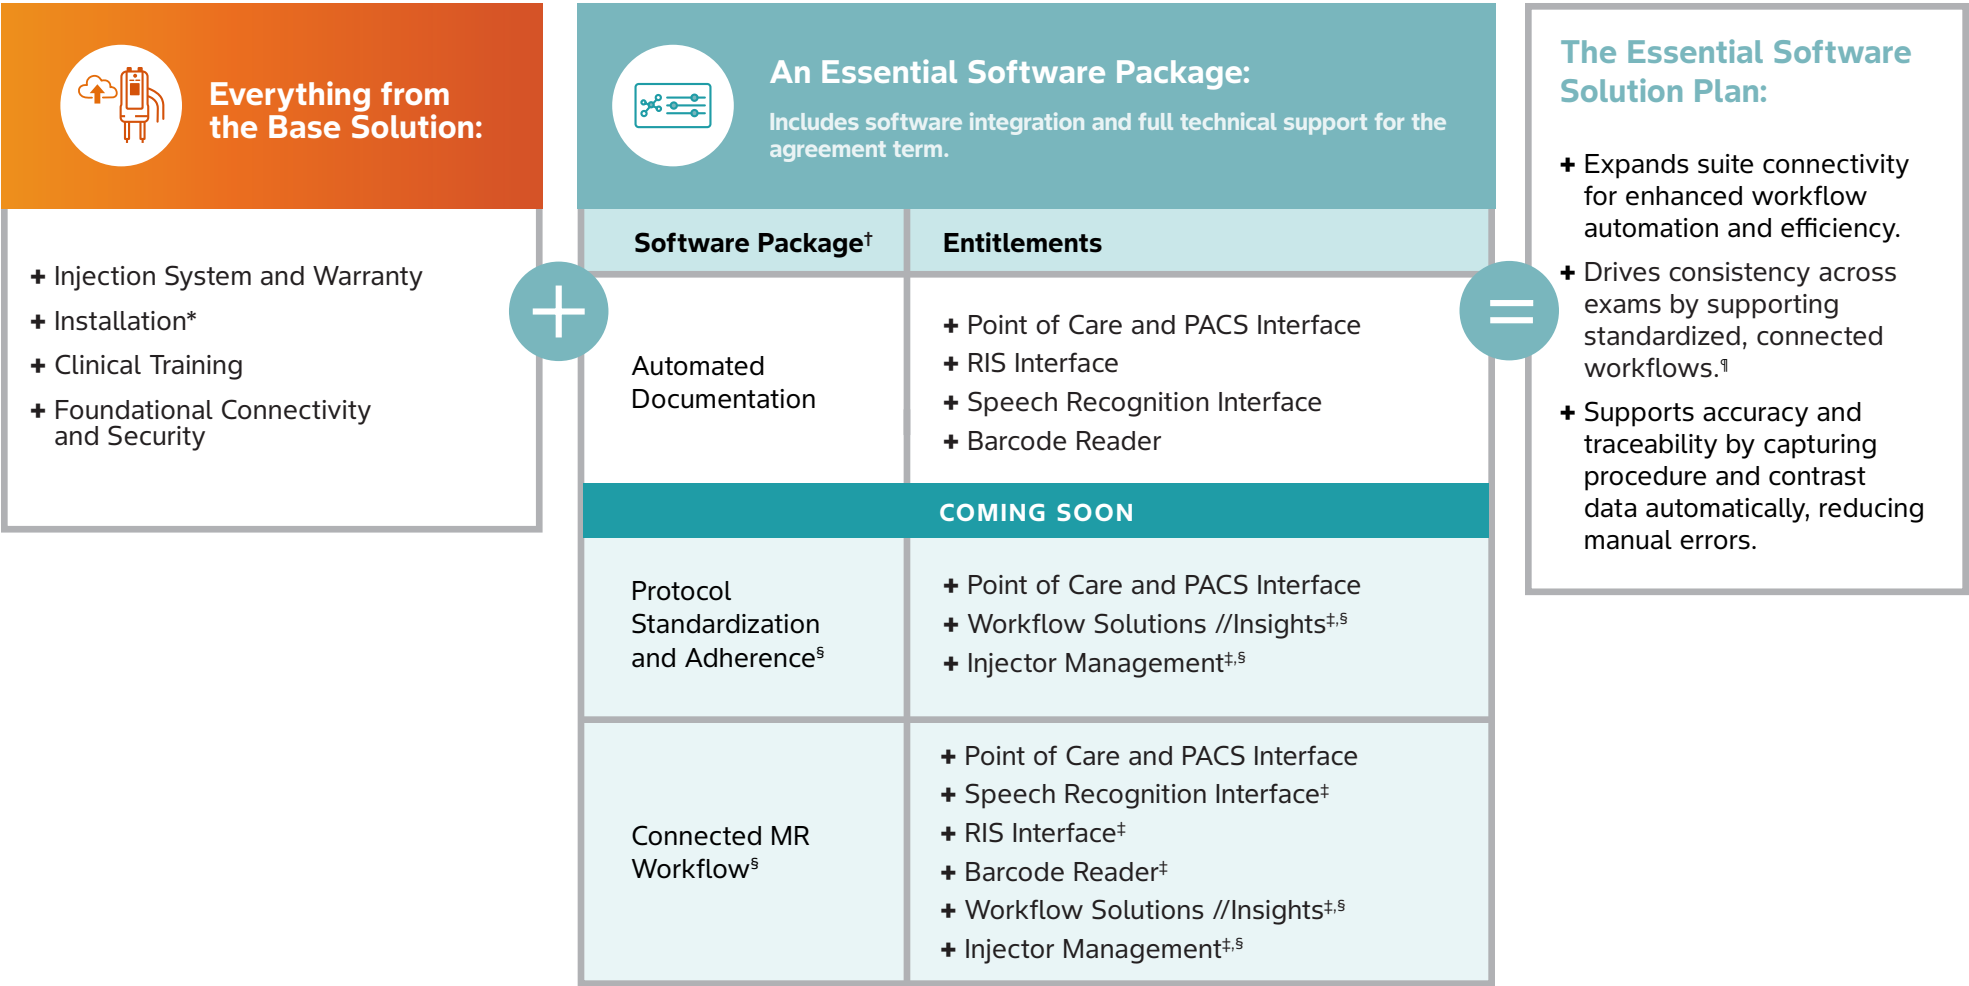

The Essential Service Solution Plan delivers hardware maintenance powered by remote connectivity and onsite service, supporting operational performance and uptime.

*Installation fees will be listed separately from the MEDRAD MRXperion purchase on the quote and invoice.
†Based on the average uptime for all units contracted during the reporting period. Metrics include all fully-supported Bayer product lines excluding Intego.
‡Based on a business day (8 AM - 5 PM; local time), excluding Bayer observed holidays. Metrics include all fully-supported Bayer product lines excluding Intego.
§Reflects single-case issue resolution within one visit.

The Essential Software Solution Plan offers access to a software package, which includes integration and ongoing technical support.

Unlock the Full Potential of the Connected Suite with Advanced Support, Data and Expertise

The **Comprehensive Solution Plan** can help elevate productivity and performance in your department with integrated software, services, education and data. In addition, Bayer’s clinical and technical experts serve as a valuable extension of your team.
