

May 1, 2019

Dear Valued Bayer Customer,

This letter is to inform you that as of May 1, 2019, Bayer will no longer offer the classic versions of the MEDRAD® Stellant CT Mobile Injection Systems for sale in the United States. Bayer will continue to take orders for these systems up to October 25, 2019 with shipping to occur no later than November 1, 2019.

As part of our continued focus on providing the highest quality disposable products, Bayer continues to support and offer disposables for the classic versions of the MEDRAD® Stellant CT Mobile Injection Systems.

Stellant D/DX Dual Mobile Injection System - Classic

Discontinued Mobile Systems	Catalog Number
<i>Stellant Sx, Single – Classic</i>	SCT 121M
<i>Stellant D Dual – Classic</i>	SCT 211M
<i>Stellant Dx Dual with DualFlow - Classic</i>	SCT 221M

In the coming months a new Mobile Clamp Kit will be available for customers considering a mobile configuration for the MEDRAD® Stellant CT Injection System with Certegra® Workstation (SCT 321 pedestal model).

The MEDRAD® Stellant delivers increased levels of efficiency and patient-centered care in CT imaging with a scalable informatics ready solution offering radiation dose management and contrast dose management options. We support our CT solution with VirtualCare® Remote Support and flexible support service programs.

Please contact your local Bayer representative or visit www.radiologysolutions.bayer.com if you have questions regarding the discontinuation of this product.

Sincerely,

Rich Dewit
Head, US Sales & Marketing - Radiology
